ABOUT THE COLLEGE

Trinity College Of Engineering And Technology was established in the year 2008, by Trinity Educational Society for community development in a backward educational area dominated by under privileged sections of the society. The college has completed 16 years of its existence with glory. The college is located in Peddapalli with good connectivity of road and rail. The great strength of the college is visionary management. Availability of strategic planning, documentation, record keeping, E-management and innovative teaching practices; quality and access are the core values in curriculum and teaching and evaluation methodologies in alignment with global trends.

ABOUT THE DEPARTMENT

The department of CSE established in 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. The Department of Computer Science and Engineering (CSE) offers B. Tech course in CSE. The Department has experienced faculty with good publications and well-established laboratories. The computer science and engineering department of the college works with a motto of "Excellence in Computing Technology" stresses on strong understanding of theoretical concepts along with the practical experience with several challenging assignments and Projects.

ABOUT THE COLLEGE

Trinity College Of Engineering And Technology was established in the year 2008, by Trinity Educational Society for community development in a backward educational area dominated by under privileged sections of the society. The college has completed 16 years of its existence with glory. The college is located in Peddapalli with good connectivity of road and rail. The great strength of the college is visionary management. Availability of strategic planning, documentation, record keeping, E-management and innovative teaching practices; quality and access are the core values in curriculum and teaching and evaluation methodologies in alignment with global trends.

ABOUT THE DEPARTMENT

The department of EEE established in 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. We have a fine blend of dynamic and experienced faculty who provide quality education in technical UG programs with JNTU-H curriculum, the department places equal emphasis on theoretical and practical domains of electrical and electronics engineering. The laboratories are highly modernized to reflect the rapidly changing trends in technology. We have been organizing many symposiums, workshops, skill development programs to encourage the students to refine their personality and extracurricular skills.

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on "Concepts of PCB Design"

Date: 16-09-2019 to 30-09-2019

Resource Person: Mr. S.Thirupathi, Assistant Professor

Department of Electrical and Electronics Engineering

Contact No. 9966776541

Name of Co-coordinator: Mr. K.Vamshi Krishna, Assistant Professor

Department of Electrical and Electronics Engineering

Number of Students Attended: 77

Venue: Seminar Hall-Trinity College of Engineering and Technology

Trinity College of Engineering and Technology, Peddapalli organized a certificate program on **Concepts of PCB Design** students by the resource person Mr. S.Thirupathi. Totally 77 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

1. To design and fabricate PCB for prototyping.
2. To design and fabricate PCB in Industrial Production environment.
3. To innovate faster with electronics technology.

Learning Outcomes:

1. Understand a single layer and multilayer PCB
2. Create and fabricate a PCB
3. Evaluate and test a PCB

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on "Financial Management"

Date: 29-10-2019 to 11-11-2019.

Resource Person: Dr. Arif Arafath, Assistant Professor
Department of Master of Business Administration
Contact No. 8686865975

Name of Co-coordinator: Mr. G.Santhosh, Assistant Professor
Department of Master of Business Administration

Number of Students Attended: 140

Venue: Seminar hall-Trinity College of Engineering and Technology

Trinity College of Engineering and Technology, Peddapalli organized a certificate program on **Financial Management** by the resource person Dr. Arif Arafath. Totally 140 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

1. Improves organizational effectiveness:
2. Profit Maximization & Maintenance of Liquidity
3. Proper Estimation of Financial Requirements & Proper Utilization of Financial Resources
4. Determination of Capital Structure & Optimizing Marketing Activities
5. Assessing Capital Needs & Resource Optimization

Learning Outcomes:

1. Demonstrate an understanding of the overall role and importance of the finance function.
2. Demonstrate basic finance management knowledge.

ABOUT THE COLLEGE

Trinity College Of Engineering And Technology was established in the year 2008, by Trinity Educational Society for community development in a backward educational area dominated by under privileged sections of the society. The college has completed 16 years of its existence with glory. The college is located in Peddapalli with good connectivity of road and rail. The great strength of the college is visionary management. Availability of strategic planning, documentation, record keeping, E-management and innovative teaching practices; quality and access are the core values in curriculum and teaching and evaluation methodologies in alignment with global trends.

ABOUT THE DEPARTMENT

The department of EEE established in 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. We have a fine blend of dynamic and experienced faculty who provide quality education in technical UG programs with JNTU-H curriculum, the department places equal emphasis on theoretical and practical domains of electrical and electronics engineering. The laboratories are highly modernized to reflect the rapidly changing trends in technology.

A TWO WEEK CERTIFICATE
PROGRAM

ON

ROBOTICS & AUTOMATION

DATE: 20-01-2020 to 01-02-2020

Venue: Seminar Hall-Trinity College
of Engineering and Technology

THE OBJECTIVE OF PROGRAM

- To provide an introduction to Robotics and Automation (Robot classification, design and selection, analysis and applications in industry)
- To provide information on various types of end influencers, their design, interfacing and selection.
- To provide the details of operations for a variety of sensory devices used on robot , classification of sensors (position, velocity & acceleration types)
- Basic concepts of transformations performed by robot.
- To perform kinematics & Programming of robots.

LEARNING OUTCOMES

- Understand basic components of robotics
- Classification of robots and their applications.
- Know on types of robot grippers, their usage & design considerations.
- Types of sensory devices with working and applications.
- Basic transformations related to the movement of manipulator.
- Design a robot mechanism to meet kinematics requirements

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on “**Robotics & Automation**”

Date: 20-01-2020 to 01-02-2020.

Resource Person: Mr. G. Ashok Kumar, Assistant Professor

Department of Electrical and Electronics Engineering

Contact No. 9553143133

Name of Co-coordinator: Mr. A. Krishnaiah, Assistant Professor

Department of Electrical and Electronics Engineering

Number of Students Attended: 116

Venue: Seminar Hall-Trinity College of Engineering and Technology

Trinity College of Engineering and Technology, Peddapalli organized a certificate program on **Robotics & Automation** students by the resource person Mr. G. Ashok Kumar. Totally 116 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

1. To provide an introduction to Robotics and Automation (Robot classification, design and selection, analysis and applications in industry)
2. To provide information on various types of end influencers, their design, interfacing and selection.
3. To provide the details of operations for a variety of sensory devices used on robot , classification of sensors (position, velocity & acceleration types)
4. Basic concepts of transformations performed by robot.
5. To perform kinematics & Programming of robots.

M. Ganesh
PRINCIPAL
Trinity College of Engineering And Technology
PEDDAPALLI-505 172, T.S

Learning Outcomes:

1. Understand basic components of robotics
2. Classification of robots and their applications.
3. Know on types of robot grippers, their usage & design considerations.
4. Types of sensory devices with working and applications.
5. Basic transformations related to the movement of manipulator.
6. Design a robot mechanism to meet kinematics requirements
7. Write simple programs.

This course was very useful to the students and their feedback is positive. The management and Dr. ManiGanesh, Principal of Trinity College of Engineering and Technology thanked the resource person and participants for making the programme successful.

ABOUT THE COLLEGE

Trinity College Of Engineering And Technology was established in the year 2008, by Trinity Educational Society for community development in a backward educational area dominated by under privileged sections of the society. The college has completed 16 years of its existence with glory. The college is located in Peddapalli with good connectivity of road and rail. The great strength of the college is visionary management. Availability of strategic planning, documentation, record keeping, E-management and innovative teaching practices; quality and access are the core values in curriculum and teaching and evaluation methodologies in alignment with global trends.

ABOUT THE DEPARTMENT

The department of Electronics & Communication Engineering started right from the inception of the college in the year 2008. The primary objective of the department has been to impart quality education, training and research at the undergraduate in various areas of Electronics and Communication Engineering with broad emphasis on design aspects of electronic systems. The Department presently offers UG Programme B.Tech with an intake of 60.

DATE: 13-02-2020 to 27-02-2020

THE OBJECTIVE OF PROGRAM

- To provide exposure to students in gaining knowledge on concepts and applications leading to modeling of earth resources management using Remote Sensing
- To acquire skills in storing, managing digital data for planning and development.
- To acquire skills in advance techniques such as hyper spectral, thermal and LiDAR scanning for mapping, modeling and monitoring.

LEARNING OUTCOMES

- Fully equipped with concepts, methodologies and applications of Remote Sensing Technology.
- Prepare the candidates for National and Global Employ ability.
- Acquire skills in handling instruments, tools, techniques and modeling while using Remote Sensing Technology
- It empowers the candidate with confidence and leadership qualities.

Trinity College of Engineering and Technology, Peddapalli organized a certificate program on “**Advances In Remote Sensing and its Applications**” students by the resource person Shahjahan Lets try to understand this in detail. Following standard have learns about concept need importance and principles of satellite remote sensing role of electromagnetic radiation properties. Remote that means something which is not exactly in contact or physical contact, sensing means getting information ,data something.Totally 89 students were participated in this training program and after the completion of the program they were able to understand the following objectives and learning outcomes.

Objectives:

1. To provide exposure to students in gaining knowledge on concepts and applications leading to modeling of earth resources management using Remote Sensing
2. To acquire skills in storing, managing digital data for planning and development
3. To acquire skills in advance techniques such as hyper spectral, thermal and LiDAR scanning for mapping, modeling and monitoring.
