Description	<p>Awareness programme on Waste management skills was conducted at municipal office. Waste management and disposal of waste is a serious issue that we are facing nowadays. If we are not aware of proper waste management, it leads to serious issues like air pollution, water pollution, and soil pollution. By doing small practices in our daily life we can make a huge difference. For that, we all have to practice the "3Rs" in our daily life. The 3Rs – Reuse, Reduce, Recycle</p> <p>Reduce- try to reduce the use of single-use products maximum especially plastic substances.</p> <p>Reuse- always try to reuse day to life things. For example, carry kit when you are going for shopping.</p> <p>Recycle- try maximum to recycle or reuse things other than disposing of.</p> <p>Above all 3R's will help us and our society for the proper disposal of waste management.</p>
